 station+sport center / 介入: 公园、火车站和运动中心

作 者 / Author: Davide Pagliarini
 作品主题 / Theme: New airport terminal / 新航空站
 作品简介 / Introduction: The terminal relates closely to the surroundings and focuses the functional complexity into a single image. The form of the building is designed to combine a strong and recognizable presence with transparency towards the aircraft apron and the landscape. The garden Trees, bushes, hills, lawns and slopes are arranged on a measured grid, generating a thematic garden made up of different areas, each of them characterized by a peculiar view.
